Education

Simon Fraser University — **Expected Graduation: May 2027**
Bachelor of Applied Science — Business, Computer Science & Artificial Intelligence — *Burnaby, BC*

Experience

Planning & Analytics Intern — **Sep 2025 – Dec 2025**
TELUS — *Vancouver, BC*
- Automated cross-team reporting workflows with **Google Apps Script** and **Google APIs**, cutting manual processes by **50%** and enabling **agile iteration cycles**.
- Built **AI-driven financial models** to predict performance and uncover key discrepancies, improving forecast precision by **10%**.
- Built an **AI Copilot automation system** that generated project summaries and insights on demand, improving information accessibility and cutting manual reporting time by **40%**.
- Translated complex datasets into clear **product insights** for senior leadership, influencing **roadmap priorities** and cross-department planning decisions.
- Implemented **data validation pipelines** and documentation standards to improve report reliability and scalability across analytics workflows.

AI Product Manager, Strategy (Intern) — **Dec 2024 – Apr 2025**
Sparks Academy — *Vancouver, BC*
- Owned the **product roadmap**, **launch**, and **go-to-market strategy** for an **AI robotics** and **STEM** learning platform, guiding **cross-functional collaboration** from concept to pilot rollout and enabling its alignment with school board curriculum standards.

Private Equity Analyst Intern — **May 2024 – Sep 2024**
Fifty-Seven Capital — *San Antonio, TX*
- Built **automated financial dashboards** and **variance models** in **Excel**, improving reporting efficiency by **60%** and increasing data accuracy for investment reviews by **25%**, accelerating partner decision-making cycles.

Product Manager, Growth (Intern) — **Mar 2023 – Jun 2023**
Illuminate Universe — *Vancouver, BC*
- Led **program iteration and delivery optimization** for a flagship **experiential learning initiative**, collaborating with **cross-functional teams** to enhance scalability, streamline operations, and strengthen participant engagement across cohorts.

Projects

AccentCoach — **OpenAI Whisper | LLM Datasets | HTML | CSS | JavaScript**
- Built a **speech recognition web app** for French learners using **deep-learning models** for phonetic analysis, providing real-time feedback and accuracy tracking for **10+ users**.

AutoCRM — **TypeScript | Python | React | Supabase**
- Developed an **automated CRM platform** that parses **LinkedIn profile data** and populates structured fields in a **Supabase database**, streamlining data entry and centralizing contact tracking for job outreach.

Leadership

Founder & Chief Executive Officer — **Mar 2023 – May 2024**
Invision The World — *Vancouver, BC*
- Launched and directed a **youth empowerment organization**, securing **$2,000+ in partnerships** and coordinating stakeholders across **3 community groups** to design and deliver programs impacting **200+ youth**.
